Adventure Summary

The mountainous passes between Isgar and Molthune were daunting and treacherous. Avalanches and fearsome mountain goats were, in many ways, the least dangerous of the threats you faced, though each was deadly and draining in their own right. Though the unmarked trails are far from claimed, perhaps your efforts will aid the trade between Isgar and Molthune, strengthening the region against the looming threats plaguing the Inner Sea.

Boons

Experienced Mountaineer (General): The trek from Isgar to Molthune taught you tricks for navigating treacherously steep terrain. While this boon is slotted, you treat mountainous terrain and other steep slopes as difficult terrain, rather than as greater difficult terrain.
